Hunt and (2) Certificate of Commendation from US senator Harry Reid, for fostering a dialogue of international understanding that promotes education and social programs

Candidate's statement

If I were elected as Treasurer, I would pursue most of the objectives that I have actively pursued in various capacities during the past 3 years of service to this organization. As treasurer, I would use the power of the office, under the leadership of the president, to develop new business for and contribute to the

growth of this organization. The effort will ultimately benefit all Chinese corrosion professionals worldwide.
